FUNERAL OF SAMUEL SPENCER TOMORROW.

Lynchburg, Va., Nov. 30—The cause of the awful wreck near Lawyers station, ten miles south of this city, yesterday morning, in which President Samuel Spencer and his party of prominent New York and Baltimore men lost their lives, is laid absolutely at the door of C. D. Mattoax, the operator who was in charge of the block telegraph station at Rangoon. Mattoax, who disappeared after being relieved lags than time. It is probable that some of the property sold Mr. Newhouse went for more money than has been announced. Mr. Newhouse said last night: "I am going to have the money I paid for every piece of property named in the deed of that property to me, so that Salt Lake people can see exactly what I am paying for the property I buy here."

A dozen big real estate men declared last night, after hearing of Mr. Newhouse's purchase, that he could sell his half block today and realize \$500,000 profit on his deal. Mr. Williams was an evasive witness, refusing to admit anything. He said he had taken up coal lands, but asserted blissful ignorance of the present status of the title to this land. He said the fuel company probably held the title, but could not tell how this transfer was effected. When the witness was asked about money paid to the late Major William H. Commissioner Clark sustained Attorney Allison's objection.
